Dear Silvio

The Mark Headbush Foundation extends its heartfelt thanks for the donation of the concrete, and good advice received from Allister for the way forward.

Without your assistance we would not be able to build those classrooms and make a difference in the lives of those children.

At loggerheads now is the good Samaritan to assist in the preparation of the ground and if you happened to have one in mind please do advise me.

May you and your business prosper.

Thanking in advance

Warm regards
